

AFEEC & FAPECA CONFERENCE 2024

26th – 28th June 2024

Kuala Lumpur Convention Centre (KLCC), Malaysia

ENERGY TRANSITION : PATH TO NET ZERO

Organised by

In Conjunction with

INTRODUCTION

We are back!! The AFEEC & FAPECA Conference is held once a year and the location is rotated among the member countries. TEEAM is honoured to be selected to host the AFEEC & FAPECA Conference 2024, theme “Energy Transition - Path to Net Zero”.

The ASEAN Federation of Electrical Engineering Contractors (AFEEC) comprised five ASEAN electrical industry associations from Indonesia, Singapore, Philippines, Thailand and Malaysia, namely the Association of Indonesia Electrical and Mechanical Contractors (AKLI), Singapore Electrical Contractors and Licensed Electrical Workers Association (SECA), Society of Philippines Electrical Contractors & Suppliers (SPECS), Thai Electrical & Mechanical Contractors Association (TEMCA), and The Electrical and Electronics Association of Malaysia (TEEAM). As a non-government organisation recognised and affiliated to ASEAN, AFEEC looks forward to the standardisation of electrical engineering contracting practices in the five ASEAN member countries and work towards higher level of professionalism of the electrical engineering contracting industry.

AFEEC is also a member of the Federation of Asian and Pacific Electrical Contractors Associations (FAPECA). Its membership compromised of AFEEC members, South Korea, Hong Kong, Taiwan, Australia, USA, Mexico, Hawaii, New Zealand and Japan.

Energy transition is a significant structural change in an energy system regarding the supply and consumption on energy. This process involved in phasing down fossils fuels and re-developing to operate with low carbon electricity. Today, the global energy sector is undergoing rapid changes and growing momentum to de-carbonise energy systems towards net zero greenhouse gas emissions. “Energy Transition - Path to Net Zero” was chosen as Conference theme, as we are part of the world, we aim and strive together among our members to limit global warming and climate change.

In addressing this issue, the Malaysia Government has published the National Energy Transition Roadmap (NETR) to accelerate the energy transition for Malaysia.

TEEAM warmly welcomes you to the AFFEC & FACECA Conference 2024. See you there!

PROGRAMME
